June

Welcome to June, the last month of the school year. The children have grown socially, emotionally and academically. They are able to understand and share much more than when they entered in September. The improvement has been an outstanding result of their hard work, hands-on experiences, positive relationships with peers and individual creativity.

In short, our kindergarten classroom has accomplished a great deal this year!

On we had parent / teacher conferences. On June 8, we will take a field trip to the Forest Park Zoo. Our class will have a Summer Birthdays party on June 12. Our Beach & Bubble Day is scheduled for June 13 and our year end party will be the 15th. Last day is the 18th. It is a 1/2 day. They will continue reviewing good reading strategies, comprehension skills and phonemic awareness.

In Mathematics the review will consist of graphing, measure-

Watermelon days.

ment, and addition. The last letter is "O" for **Oceans** which is our monthly theme. Art projects are planned including making a fantastic fish, a kindergarten year book and a Father's Day gift with-card.

Last Day June 18

Parent Volunteers are
needed for Beach -n-
Bubble the 13th.

May's Activities

We started off the month with Open House. The children were delighted to show you around the classroom. In language arts the children did a great job with reading and writing. Our Mother's Day projects were beautiful. In mathematics we continued to review numbers and were introduced to addition.

In science we planted . We learned about seeds and can now name parts of a plant. We also began to discuss insects. We participated in art activities and read stories reviewing the life cycles of the caterpillar, ladybug and frog.

On May 21 we celebrated Field Day. This was fun for children and adults.

Many thanks to all parents who volunteered their time in the classroom.
