Dance Pick-Up Procedures

- The Dance ends at 9:30
- As you enter the school driveway from Stony Hill Road, all vehicles will go right, driving around the rotary.
- As you approach the front entrance of the school, there will be NO LOADING in the front of the school, please continue to the side of the school and park your vehicle.
- Please get out of your vehicle and pick up your student(s)
- Please follow the traffic flow around the parking islands and back onto the main driveway to school, exiting to Stony Hill Road.
- I appreciate that parking and getting out of your vehicle is an inconvenience. However, in the past when we followed this procedure, pick up of 185 students took 12 minutes and there was no back up onto Stony Hill Road.
- The only change is that we are bringing all of the students out on the side of the school not the front of the school to prevent people from trying to load in the front which delays the flow of traffic.
- In the event that there is bad weather and because there is no awning on the side of the building, we will have the kids under the awning and ask that you still park and get out of your vehicle to pick up the kids.
- Again, I realize this is an inconvenience but if everyone uses patience, the end result is a much quicker pick-up with fewer frustrations in your attempt to get in and out of WMS.
